

Brief Report on the Chulalongkorn University Undergraduate Student Visit
Faculty of Dentistry, Niigata University
June 8–10, 2026

In June 2026, undergraduate students from the Faculty of Dentistry at Chulalongkorn University visited the Faculty of Dentistry, Niigata University for a three-day academic exchange program. The program was hosted by the Division of Preventive Dentistry and the WHO Collaborating Centre for Translation of Oral Health Science, together with the Division of Dysphagia Rehabilitation and the Division of Comprehensive Prosthodontics, Faculty of Dentistry, Niigata University.

The program was designed to foster academic collaboration and promote cultural exchange between the two universities. During the visit, the participants attended a series of lectures including specialized sessions on CAD/CAM delivered by faculty members and research presentations by postgraduate students from Niigata University. The students also participated in hospital and laboratory visits, which provided valuable opportunities to observe clinical and research activities. The participants also joined a GC visit, where they were able to gain practical insights into specialized dental settings and industrial collaboration.

Overall, the three-day visit successfully provided a meaningful platform for academic learning, professional networking, and intercultural understanding. It is expected that this program will contribute significantly to the academic and personal development of the participating students and further strengthen future collaboration between Niigata University and Chulalongkorn University.

Schedule of the Program:
